“How to Survive the Optometric Tsunami Ahead: Embracing the Myopia Epidemic”

Optometry will face major challenges in the years ahead: Online refractions, eyeglass and contact lenses websites, decreasing revenues with increasing expenses and regulations, mergers of 3rd party vision plans with ophthalmic manufacturers, just to name a few, are reshaping the future of optometry. Modern Orthokeratology becomes an awesome opportunity to leverage the coming crisis to position optometric private practice for the future ahead. Dr. Arroyo will discuss how Ortho-k has become the gold standard to help control the current myopia crisis in the young population. He will talk about what every optometrist should know to keep parents informed about the different therapeutic modalities effectively preventing further myopia progression, protecting the future of our children.

2 D/T CE Hours

Presented by:

Julio Arroyo, OD, PScD, MBA

Dr. Julio C. Arroyo is a native of Spain where he completed college studies with concentration in Optics and Optometry. He received his Doctor of Optometry in 1999 from the University of Houston College of Optometry. Dr. Arroyo has done extensive training in non-surgical refractive correction of myopia and astigmatism as well as hyperopia. He has significant experience in anterior segment disease, glaucoma management, pediatric and binocular disorders. When not seeing patients, Dr. Arroyo enjoys spending time with his family as well as playing the guitar and soccer.
