NEW WORLD  
MEDICAL

Humanity's Vision Is Our Focus

This month's Central program is titled:

**“Excisional Goniotomy’s Role in the World of Minimally Invasive Glaucoma Surgery”**

**Synopsis:** Minimally invasive glaucoma surgery (MIGS) is rapidly changing and expanding with new stents being approved (and sometimes withdrawn) each year. It can seem overwhelming to keep up with all of the developments. Together, we will review what is currently available. We will focus on excisional goniotomy with Kahook Dual Blade to demonstrate patient selection, mechanism of action, surgical technique, post-operative care, and expectations.

**2 hours D/T CE**

**Presented by:  
Caroline Schmidt, MD**

**Dr. Schmidt received her Bachelor of Science in Chemistry from the University of Notre Dame. She earned her Doctor of Medicine at the University of Michigan. She completed her Ophthalmology residency at the Baylor College of Medicine's Cullen Eye Institute and also completed a Glaucoma fellowship. She is currently with Mann Eye Institute and Laser Centers in Houston, Texas**

**All HCOS Members attending this program will receive 2 hours of diagnostic/therapeutic CE, and dinner\* all for FREE. Non-members will be charged \$65.00 to attend. All registrants must RSVP by Thursday, April 25th at 12 midnight to confirm table seating and dinner. After the early registration deadline or at the door the member fee is an additional \$15, and we cannot guarantee dinner will be available.**

**HCOS would like to thank NEW WORLD MEDICAL for providing dinner for tonight's presentation and for their support of our society.**

**To register go to [HCOSHOUSTON.ORG](http://HCOSHOUSTON.ORG) to register for this lecture. or if you don't have access to a computer, telephone HCOS at 713-408-9060.**

**Please remember if you cannot attend the meeting, notify HCOS of your cancellation by the Friday before the meeting to avoid being invoiced \$75.00 for the meeting as a no show.**
